

**DIRECTIVES:
PHOTOS &
VIDEOS
AT WEDDINGS**

- ◆ **Photographers & Videographers** are permitted to record a wedding at Holy Faith. Such professionals are expected to respect the sacredness of the wedding ceremony.

- ◆ **Flash photography is not permitted** during the ceremony. Photographing or videotaping should not obstruct nor distract from the wedding ceremony. The photographer or videographer must not enter the sanctuary during the ceremony. **Spotlights are not permitted** during the service.

- ◆ The photographer and videographer should consult with the **liturgy director** or the **presiding priest** for instructions as to the best places to perform their work.

- ◆ Often another wedding or Church service might follow the wedding. *Photographing must be finished by ½ hour after the end of the wedding.*

- ◆ You might consider photographing various members of the wedding party and family before the ceremony and before the guests arrive. This does take some planning and requires that you schedule the church in advance. Please consult the **liturgy director** for the availability of the church before your ceremony.
